

Project Name	Modernisation and Reconstruction of Public Lightning System in the Municipality of Žabljak
Start – End	November 2019– December 2020
Project Value	163.846 EUR
Slovenian Funding	80.569 EUR
Recipient Country/ Donation Recipient	Montenegro / Municipality of Žabljak
Project Contractor	Artek d.o.o. Podgorica and Civil Engineer d.o.o. Podgorica
CRS CODE	CRS CODE 23010
Project Description	Zabljak is a town, municipal center and winter tourist center in the heart of the Durmitor region in the northwest of Montenegro. Most lamps in the public lighting system were outdated and energy inefficient. Within the project, 406 LED lamps with associated equipment were procured, existing lamps were dismantled and more energy efficient LED lamps assembled. The purpose of the project was the reconstruction of public lighting in the municipality of Zabljak, which increases the energy efficiency of the city and contributes to the development of pure "eco" industry. The level of illumination increased and thus the safety of road users.
Project Phase	The project is concluded.
